

**SAMSON:**

# INVICTUS Grease

With INVICTUS grease from SAMSON you can reduce maintenance costs, lower downtime and extend service life for your SAMSON machines.

INVICTUS lubrication grease is designed especially for all SAMSON equipment. It is developed for usage on heavy loaded bearings and bushings as well as in central lubrication systems with long greasing lines and high pressures. It protects efficiently against corrosion and rust, even in the presence of slurry, muck or in wet environments.

With INVICTUS grease from SAMSON we offer you a thoroughly-tested, top-quality lubricant for maintenance of your machinery. The grease effectively supports the long lifetime and reliability characterising your SAMSON machine and helps to ensure that you get the best out of your professional equipment. INVICTUS grease from SAMSON is available at your SAMSON dealer.

GROWING TOGETHER

**SAMSON:**

# INVICTUS Grease

Care for your SAMSON machine - use INVICTUS lubrication grease.

## Advantages of INVICTUS Grease:

- As a genuine SAMSON product, it contributes to the extended durability of your equipment
- Developed for use in systems with long greasing lines and high pressures
- Effective protection against corrosion and rust, even in the presence of slurry and muck
- Contributes to extended service life and lifetime of components and wear parts
- Suitable for both manual and central lubrication
- Usable at temperatures ranging from -30 °C to 120 °C
- Prolongs lubrication intervals due to good anti-wear properties also in case of vibrations or shock load
- Suitable for all SAMSON equipment and as grease on other farming and forestry equipment and machines.

## INVICTUS Grease meets the following standards:

DIN 51 502 category KP2K-30. ISO 6743-9:1987 category ISO-L-XCCIB2. SKF Emcor WWO – distilled water/seawater. INVICTUS Grease is based on an anhydrous calcium soap and a heavy mineral oil, and it is fortified with extreme pressure additive, corrosion inhibitor, antioxidant and polymer to improve adhesion and repel water ingress. INVICTUS Grease may be used at temperatures ranging from -30 °C to 120 °C.
